Art Unit: 1646

1. The following is an examiner's statement of reasons for allowance:

The previous communication from the Examiner was a Suspension for a potential interference. After careful review of the interference sequence search and other information, it has been determined that there is no interference at this time, because any pending application that are directed to the same or substantially the same subject matter have filing dates that several months ~~prior to~~ <sup>after</sup> applicant's filing date so as to preclude an interference. Thus, the claims are in condition for allowance.

It is further pointed out that applicants have filed an amendment and a new disk and paper copy for two corrections in the sequence listing. Based on the information and discussion about the inadvertent error that arose as a result of producing the sequence listing, it would appear that the correction of this error is proper and necessary, because the original figures provide support for the changes being requested by applicant. Accordingly, this does not appear to constitute new matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication should be directed to Garnette D. Draper at telephone number (703) 308-4232.
